

June, July and August 2018 – RDMS Release Notes

RDMS Data Dictionary Reports

- These Cognos reports are available to users in folders:
Team Content → Event Reports
Team Content → Feedback Reports
- Users will be able to access one or both of these reports depending on their access / permissions
- These reports provide mapping of RL forms / sections / field captions to RDMS field name (including RL operational fields such as file ID, file state, file status, closed date, which do not exist on RL forms)
- Reports are refreshed monthly based on the information provided by the RL application
- Report functionality allows users to filter by Medical Center, File Type (for Events), RL Section, RL Field Caption and RDMS Field Name. Users can also search for specific text in these columns.
- The filters - File Type (for Events), RL Section, RL Field Caption and RDMS Field Name - need to be selected in order. The filters values are loaded based on selection in the previous filter.
- See Screenshots below:

The following changes have been made to the “RDMS Adhoc package” & “Risk Adhoc Package”, which are used for building custom Event reports in Cognos:

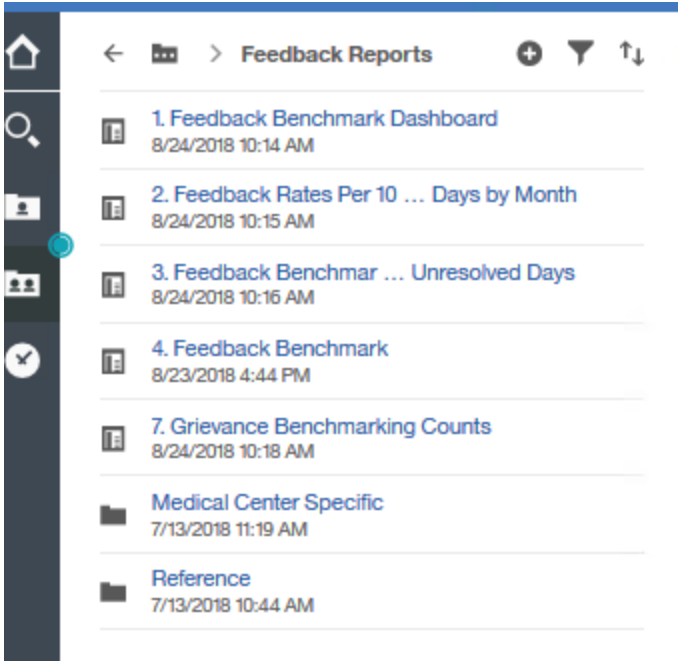

- File ID Count measure has been added for use in graphs/charts
- Added DateTime dimensions for “Form Entered Date”, “Form Submitted Date”, “Incident Closed Date” & “Incident Date”
- Please note that not all users have access to this custom reporting capability.

Feedback report folder restructuring

- Cognos feedback report folder structure changed to better organize benchmark reports, medical center specific reports and reference reports.
- Medical Center Specific folder contains operational reports for your medical center only.
- Reference folder contains Data Load Time report and Data Dictionary report.
- See screenshot below:

Additional RDMS Security has been implemented for Feedback reports

- Backend security has been implemented on RDMS which allows robust access control mechanism.
- Feedback report users who do not have access to detail and PII fields won't be able to see data for those fields on below report **9. Grievance Operational Counts Detail**.
- See screenshot below:

9. Grievance Operational Counts Detail

Medical Center : UCD
 Date Range : Date of Initial Contact
 Fiscal Year : 2014
 Fiscal Quarter : Q3
 Divisions : All
 Total Issues : 118

View By : Divisions

UCD - Anesthesiology - Q3

File ID	Date Of Initial Contact (Date)	Resolution Date (Date)	MRN	Category 1	Category 2	Issue Description
1671	January 26, 2014	August 12, 2013		Attitude/Courtesy	Behavior / Conduct / Communication Style	
23203	February 17, 2014	June 4, 2015		Quality of Care	Technical Skills and Knowledge of Staff	
23203	February 17, 2014	June 4, 2015		Attitude/Courtesy	Behavior / Conduct / Communication Style	
23203	February 17, 2014	June 4, 2015		Quality of Care	Treatment/Procedures	
42750	March 25, 2014	October 20, 2016		Quality of Care	Treatment/Procedures	
57803	March 1, 2014	September 22, 2017		Quality of Care	Treatment/Procedures	
57803	March 1, 2014	September 22, 2017		Communication	Communication with Patient/Client	
57803	March 1, 2014	September 22, 2017		Quality of Care	Medication	

UCD - Cardiovascular Medicine - Q3

File ID	Date Of Initial Contact (Date)	Resolution Date (Date)	MRN	Category 1	Category 2	Issue Description
31490	March 31, 2014	January 5, 2016		Quality of Care	Treatment/Procedures	

UCD - Compliance - Q3

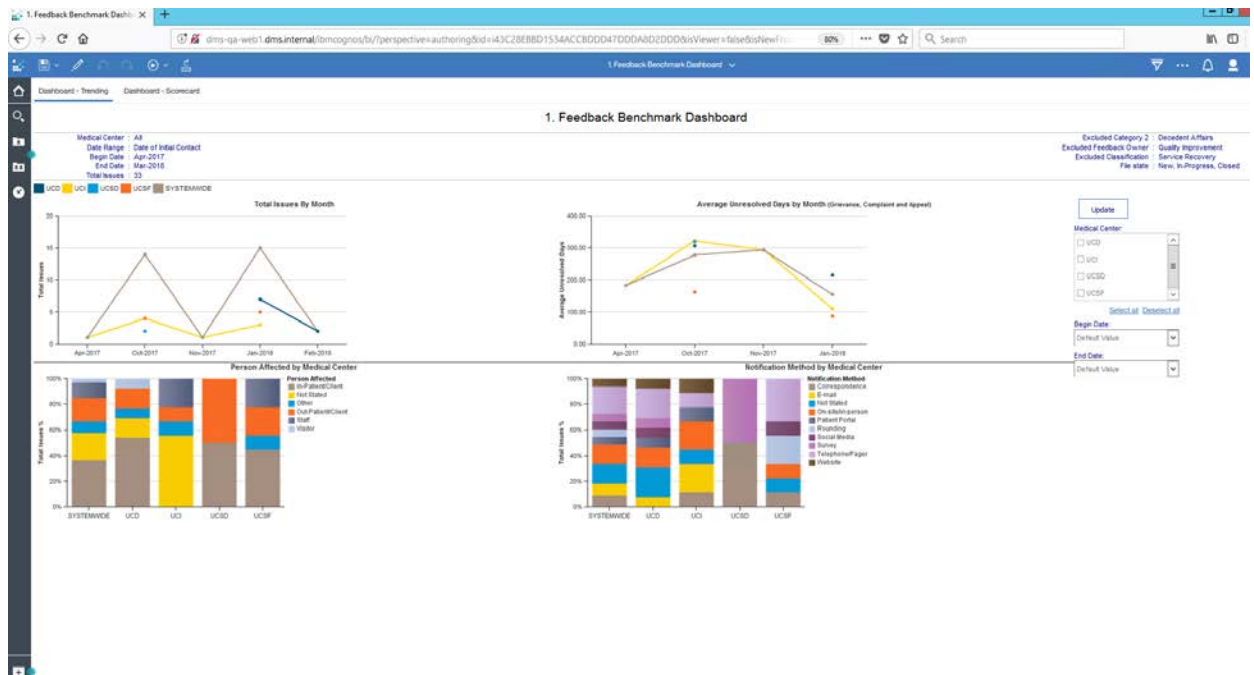

File ID	Date Of Initial Contact (Date)	Resolution Date (Date)	MRN	Category 1	Category 2	Issue Description
1417	March 18, 2014	August 6, 2013		Administrative/Regulatory	Privacy/Confidentiality	
3002	March 2, 2014	October 8, 2013		Administrative/Regulatory	Privacy/Confidentiality	
39997	February 17, 2014	July 26, 2016		Administrative/Regulatory	Privacy/Confidentiality	
45514	January 7, 2014	December 5, 2016		Administrative/Regulatory	Privacy/Confidentiality	

Annotations:

- PII Field will show null values (pointing to MRN column)
- Details fields will show null values (pointing to Issue Description column)

Change from weekly to daily incremental RL data file processing

- The ingestion of RL files for the 4 Medical centers - UCD, UCI, UCSD, UCSF for Event and Feedback has been switched from weekly incremental to daily incremental. RL now exports files on a daily basis on weekdays (Monday through Friday)
- New or changes to the files on weekends (Saturday & Sunday) will be included on Monday's RL exports.
- Users will be able to view reports with more recent data due to the daily RL exports.
- The "As of date" on the Feedback report header has been removed. All data import dates can now be viewed in data load report.
- See screenshot below:

Other Notes

- RDMS Cognos reports are best viewed in Internet explorer. Users may see some issues while using other browsers such as Chrome or Firefox. **As such the recommended browser is IE.**
